FURNITURE

MORAN
FURNITURE

Our story begins....

In 1941, two brothers, Otto and Mindor Hjellegjerde commenced making furniture in the cellar of the family home in the fjord community of Sykkylven in Norway.

With great commitment the brothers built a company which has grown to be a significant player in the Norwegian furniture industry.

Craftsmanship, quality and Norwegian design

The constant objective has been to create quality furniture with a focus on comfort and Norwegian style, with master craftsmanship a vital component of their early success.

The way forward

Today Fjords' master craftsmanship is meticulously integrated with modern technology to deliver a premium quality chair and a sublime experience.

However, behind the modern technology is our people, it's their creative genius that's infused into our chairs giving them a uniquely Nordic soul that sets them apart.

When you invest in a chair by Fjords, you'll enjoy a unique blend of Nordic style, craftsmanship and comfort for many years of enjoyment.

Select from a range of premium leathers

Welcome to Fjords' Modern Living Collection

The ambition was to create a range of contemporary chair designs offering unrivalled seating comfort. They feature dual motorised designs to ensure continuous support for your legs and back, with independent control of the footrest and back position, and each feature a swivel base.

Each chair is available in a variety of prestigious leathers to select from.

Quality and craftsmanship

Since the beginning, Fjords have produced furniture that beautifully showcases Nordic design and quality craftsmanship. We are proud that after 70 years our furniture is still produced with the same dedication and skill.

Tradition and innovation

Our philosophy, is to find the perfect blend between tradition and innovation, the point where yesterday's knowledge meets modern technology, allowing us to create chairs that are superbly built for years of pleasure.
